2B Mathematical Physics | #20655350

QUALIFICATION SUMMARY

- Comfortable with **Html, CSS, JavaScript, Python, C, C#** and **C++**
- Working experience with **JIRA, Android Studio, XCode, Visual Studio** and **GitHub**
- Experienced in **writing test suite, logging bug ticket** and different types of testing (**Sanity, Regression** and **Upgrade**)
- Familiar with **Android, iOS operating systems** and their **Software Release Management**
- Strong **attention to detail** and **technical writing** skills gained from performing tests, writing test suites and Jira tickets
- Excellent **collaboration** and **interpersonal** skills practiced while participating in extracurricular activities
- Refined **organizational** and **time management** skills enhanced from work experience

PROJECTS

- **Flappy Bird Remake (Android Studio)** <https://github.com/ballhan/AndroidStudio-FlappyBird-Remake>
- **Personal Website (Html, CSS)** <https://ballhan.github.io/Personal-Website>

EXPERIENCE

QA Analyst

Kik Interactive, Waterloo

01/2018 - 04/2018

- Performed daily duties including **Sanity, Regression, and Upgrade testing**
- Actively participated in team's **UI Automation Project** by writing **Integrated Tests** using **C#** in **Visual Studio** weekly
- In charged of **investigating** and **logging** bugs reported from User review, Company channel and Instabug on a bi-weekly schedule
- Deployed in total of **6 Features** by working closely with an assigned developer, including **attending planning meetings, writing test suites, performing tests, and product review**
